Undercarriage  
Catalog*

## ***ITR's New "On Line" Undercarriage Catalog... Saves Time & Money... Fast and Easy to Use...***

ITR North America has just released the ***ITR Undercarriage Application Catalog*** available to registered customers for use on the ITR North America website. This new undercarriage application catalog is Easy and Fast to use, and contains some of the latest, most comprehensive and accurate information available in the industry.

Developed by **ITR North America**, this new Undercarriage Application Catalog includes the latest equipment applications and undercarriage part number information covering a wide variety of track equipment manufactured by Caterpillar, Deere, Case, Hitachi, Komatsu, and other popular manufacturers. ITR's new catalog will save you time and eliminate the need to search through catalogs and parts books to find the right part numbers needed to service your customer's undercarriage.

### ***EASY to USE***

With just a few easy to use steps, you will be able to:

- 1.) Select the Manufacturer... Cat, Deere, Case, etc.
- 2.) Select the Machine type... Dozer, Excavator, etc.
- 3.) Select the Model... D6H, JD450, D65EX etc.
- 4.) View the specifications & all parts offered for this particular machine including Track Groups, Chain lengths, Pad styles & widths, Rollers, Idlers, Sprockets, Segment Groups and more. From there simply select the part options you wish to price & check inventory.
- 5.) View your costs & check current inventory on the parts you need.
- 6.) Name & save your quote for later reference or click to process the quote as an immediate order.

***Cost Protection for 30 Days...*** By using ITR's "On line" Applications and quote system, you can be protected for 30 days from price fluctuation on parts you have quoted to customers.

***Fast and Simple...*** ITR North America's "On Line" Undercarriage Catalog puts the power of experience and the internet at your fingertips. In just a few seconds you or your staff members can identify the right parts you will need for a particular undercarriage repair with confidence and accuracy. With ITR's "On Line" catalog you will see all the options, identify the right parts you need, know your costs, check inventory status, and be able to get the parts you need in route to your location.

***Not an ITR Registered Customer Yet? ...*** ITR North America is the leading quality Undercarriage & Repair Parts supplier in North America, providing products and support to dealers and distributors.
