

July 6<sup>th</sup>, 2018

Dear Valued Customer,

As many of you are aware the United States Trade Representative (USTR) is planning on implementing a 25% tariff under Section 301 on certain Chinese goods imported into the USA starting from July 6<sup>th</sup>, 2018.

For more information please visit the USTR site below.

<https://ustr.gov/about-us/policy-offices/press-office/press-releases/2018/june/ustr-issues-tariffs-chinese-products>

Many of the products that ITR America offers for use on heavy equipment are included in the 25% tariff. These products include Steel and Rubber Track Undercarriage components, Ground Engaging Tools, Asphalt Paver products and miscellaneous Repair parts.

ITR America will identify the items subject to the 25% tariff as they are received from July 6<sup>th</sup>, 2018 onward and increase prices accordingly.

ITR America will continue to monitor Section 301 tariff policies for changes and updates and react as necessary.

*Please note that ITR products from countries other than China are not affected by the Section 301 tariff at this time.*

We thank you for your continued business with ITR America and if you have any questions please feel free to contact an ITR America representative.
